What is being proposed through the applications?

Below is a map showing the proposed Plan of Subdivision. A full version of this map is available on the County or Municipal websites, or at the County offices in Owen Sound, or the Municipal offices in Markdale.

The purpose and effect of the Plan of Subdivision is to create four hundred and sixty-nine (469) new lots, comprising three hundred and thirteen (313) detached residential lots and one hundred and fifty-six (156) multi-attached residential units. New roads, parks, stormwater facilities, and open space blocks would also be created through the Plan of Subdivision.

Official Plan Amendments are also required to both the County and Municipality of Grey Highlands Official Plans. The purpose and effect of the County Official Plan Amendment is to re-designate a portion of lands in the northeastern part of the subject lands from the 'Rural' designation to the 'Primary Settlement Area' designation to permit new residential development. The purpose and effect of the Grey Highlands Official Plan Amendment is to incorporate the same settlement area boundary change required under the County Official Plan Amendment. The Grey Highlands OP Amendment will provide a more specific designation of "Neighbourhood" to the area subject to the settlement area boundary expansion.

The purpose of the Zoning By-law Amendment is to amend the Municipality of Grey Highlands Comprehensive Zoning By-law No. 2004-50 to rezone the subject lands to implement the 469 unit Plan of Subdivision. The effect of the Zoning By-law Amendment is to change the zone symbol from “Open Space” (OS-10) to special residential zones and open space zones. The new residential zones would fall into several categories to accommodate row town house units, small lot single detached units, standard single detached units, and a flex zone to accommodate both small lot single units and row town house units. The flex zone would not be implemented in Phases 1, 2, or 3. The open space zones would firstly be established for active parkland spaces and pedestrian accessways and secondly for SWM ponds and accessways. It is also anticipated that a Holding zone be established for the lots in part of Phase 3 that fall within the Landfill Restriction area.
