

# LEADING THE WORLD

Grey County agri-food businesses take pride in developing new practices and products that are shared locally and worldwide.

## BLUE MOUNTAIN FRUIT COMPANY

The Botden family run a vertically integrated apple farm where production is managed from rootstock to market delivery. BMFC is the exclusive Canadian producer of the highly sought Red Prince apple. They have also implemented award-winning innovative orchard technologies to aid with efficiencies and environmental sustainability.

## THE FRAUXMAGERIE LTD.

Plant-based chef Marie-Catherine Marsot has developed a revolutionary technique that allows The Frauxmagerie to create 100% vegan “frauxmages” that are cultured, fermented and aged like dairy-based cheeses. The products are in high demand across North America, serving a rapidly growing market.

## EAT LOCAL GREY BRUCE

ELGB Is a digital farm cooperative. Close to 50 local farms and food producers offer their products through the ELGB website, and customers can order online for weekly to-the-door delivery. ELGB expands markets for producers and provides a valuable service in areas where local food may be difficult to access year-round.
