

# My Family Tree 2021

1. Pick your favourite tree style.
2. Print as many sheets, single sided, as you need.
3. Fill out the information. Choose who and what is important. Relatives, friends, pets? You decide! Reach out to those you are adding to help complete the details you don't know.
4. If needed, cut out your work and arrange it on another paper, large enough to fit your family.
5. Over time update as needed.
