

# 1853 Settler Log Cabin

## @ Moreston Heritage Village

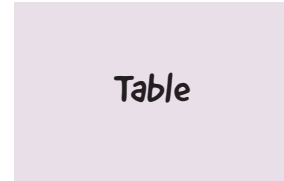

Explore the footprint of a settler log cabin. Using a measuring tape or metre stick, layout the outline of the building and items inside. Compare the space to your home? What are some similarities and differences?

# Perimeter of Log Cabin Polygons

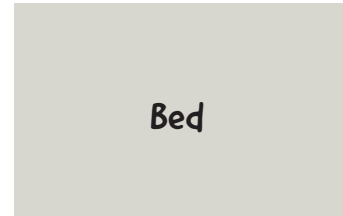

Using the measurements on the previous page, calculate the perimeter for each of the polygons below. Which perimeter is the longest? Shortest?

The perimeter of the hearth  
is 578 cm.
