

# FEEDING THE WORLD

Grey County farmers take pride in meeting highest regional, national and international standards, and delivering quality food to markets.

## CEDAR CREST TROUT FARM, ALLAN PARK, HANOVER, DURHAM

If you eat trout, chances are the fish on your plate started at the Cedar Crest hatchery, where 95% of Ontario's trout fry begin their lives. Sister and brother Arlen and RJ Taylor are second-generation aquaculturalists who work with fresh water, local skilled labour and the internet of things to raise over 6,000,000 trout fry a year.

## SHAREDON FARMS, MENNONITE CORNERS

The Curry family grows grain across Grey and Bruce counties that reaches markets locally and around the world. The Sharedon Farms silo operation serves 100+ local farms, offering high speed drying equipment, lab analysis, and 900,000bu storage as well as market intelligence and connections.

## LEWIS LAND & STOCK, SOUTHGATE

Lewis Land & Stock grows grain (wheat, corn, canola, soy, white beans and forage), raises beef and dairy cattle, and lamb. The lamb is in high demand as a holiday food for Eid in Muslim countries around the world. Many of the sheep graze on the farm's 350 acre "grass under glass" 50MW solar power installation near Holstein.
