**Subject: Environmental Impact Assessment for Draft Plan of Subdivision  
Part of Lot 27, Concession 3,  
Township of Sarawak; Township of Georgian Bluffs  
Church Sideroad East and Grey Road 1,  
Grey County, Ontario**

**Addendum to EIA**

Dear Mr. Davenport:

NEA submitted an EIA report in November 2017 for this proposed development. The plan was recently updated to 20 lots based on servicing. This addendum report is simply an update to the EIA to reflect the current site plan.

Attached is the original figure 1 from our report with the site plan overlay replaced with the new updated site plan.

As the development envelope has not changed, the impact assessment and conclusions in the EIA are still valid.

If there are any questions, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "C. Ellingwood".

Chris Ellingwood  
President and Sr. Terrestrial and Wetland Biologist
