Randy Scherzer, BES, MCIP, RPP
Director of Planning & Development
County of Grey
595 9th Avenue East
Owen Sound ON N4K 3E3

Dear Mr. Scherzer:

**RE: Minor Red-Line Revision
Flato North
Part of Lot 232 Concession 1, Geographic Township of Proton, Township of Southgate,
County of Grey
OUR FILE 15184C**

In addition to the application for Minor Red-Line Revision on the Draft Plan Approved Flato East Plan of Subdivision, the introduction of the eight metre wide Overland Flow Block also results in some minor changes to the Flato North Draft Plan which was submitted in June, 2016.

The Overland Flow Block has been added between Lots 124/125. In order to accommodate this, Park Block 241 was reduced in size and Lots 114-124 were shifted slightly to the east. No lots were lost on Flato North as a result of this change.

Two (2) copies of the revised Flato North Draft Plan have been attached as well as included electronically on the CD, however we will hold off on formally submitting a new signed Draft Plan until we have also had a chance to review and respond to comments from the circulation.

Yours truly,

MHBC

Kory Chisholm, BES, M.Sc | Planner
