

Home Recycling

It's hard to believe (but it's true!) that up to 60% of the garbage that ends up in the bin can be recycled. A newspaper could be recycled and back in your hands as another newspaper in just 7 days! Here are some interesting facts:

- 1 recycled tin can has enough energy to power a television for 3 hours
- 1 recycled glass bottle has enough energy to power a computer for 25 minutes
- 1 recycled plastic bottle has enough energy to power a 60 watt light bulb for 3 hours

Reduce, Reuse and Recycle!

New Staff

We would like to welcome Shannon Knott to the Housing Department. Shannon is the Affordable Housing Coordinator working alongside the Housing Programs Manager – Josh Gibson. Shannon will be sitting at the front counter, so you may interact with her when you visit the County building. Please join us in welcoming Shannon to the team.

“Laughter is the sun that drives winter from the human face.” – Victor Hugo

Winter Reminder

Some tips for staying warm in your apartment as the weather gets colder:

- Make sure all windows are fully closed
- All baseboard vents are in the open position
- Move furniture away from baseboards to allow air to circulate
- On very cold days make sure to keep your blinds/curtains down & in a closed position
- During heating season, never turn the heat off completely in your apartment

Save Energy

Even the smallest effort can have a big impact. Reduce your energy use to help save money.

4 Things about January

- January is the coldest month in the Northern Hemisphere and the hottest month in the Southern Hemisphere.
- Scholars say the name January derives from the Latin word for “door”.
- With the exception of leap years, January begins on the same day of the week as October.
- The birth flower for the month is the carnation.
