This map displays the geographical distribution of natural heritage systems and restoration areas within Grey County, Ontario. The county's boundary is delineated by an orange line. Settlement areas are indicated by a cross-hatched pattern, and major roads are shown as solid black lines, while secondary roads are thin grey lines. The map features three primary data series: 1) Natural Heritage Systems, shown as large, irregular dark green areas; 2) Prime Restoration areas, marked with small red polygons; and 3) Significant Natural Features, represented by light green patches. Aquatic features, including rivers and lakes, are depicted in light blue. The map is overlaid with a grid of UTM coordinates, with easting values from 490,000 to 560,000 and northing values from 4,700,000 to 4,900,000. Numerous place names are labeled throughout the county, including Claverton, Hart House, Clarksburg, and others. A legend in the top right corner defines the symbols used, and a scale bar indicates distances up to 6 kilometers. A north arrow is also present. A title block in the top right corner identifies the map as 'Map 11: Grey County Natural Heritage Systems Study - Restoration Areas', produced by Natural Resource Solutions Inc. on October 28, 2015.
