## **10.0 Other Business**

#### 10.1 2016 Public Health Indicators Year-End Report

Grey Bruce Health Unit Targets were met or surpassed for nearly all (29) of the 31 Ministry of Health and Long-Term Care Public Health Funding and Accountability Agreement indicators. Results across the province were also shared which show basic stats on how health units performed overall.

#### 10.2 Ministry of Citizenship and Immigration - Letter of Support

Dr. Kennedy shared a letter of support that was sent to the Ministry of Citizenship and Immigration regarding a proposal submitted by Bruce Grey United Way, in partnership with Grey Bruce Welcoming Communities under the Settlement and Integration Services for Refugees and Vulnerable Newcomers grant program. The proposed 18-month project will address service gaps and pressures in our region, and provide new service infrastructure to address the needs of vulnerable clients.

Moved by: Laurie Laporte

Seconded by: Al Barfoot

“THAT, the Board of Health support the application for a grant to support settlement and integration of refugees and vulnerable newcomers.”

Carried

#### 10.3 Ministry of Health and Long-Term Care, Expert Panel on Public Health Report

In February 2015, the province launched the [Patients First: Action Plan for Health Care](#). Part of this action plan, includes a requirement for the public health sector and the province’s local health integration networks (LHINs) to work together in an integrated health system. As a first step in realizing this requirement, the Government of Ontario established the Expert Panel on Public Health. The report, [Public Health within an Integrated Health System](#), was shared.

#### 10.4 Nuclear Fallout

The Board asked about a recent letter in Grey Bruce This Week wherein the writer asked if the Grey Bruce Health Unit was ready for a nuclear fall-out should U.S. president Donald Trump engage in a nuclear strike against N. Korea. It was identified that the letter had been reviewed but we would not respond as the issue was entirely speculative and if there was a nuclear fallout it would drift from the west to the east as a national emergency and would be addressed at a national level.
